On lots with more than one building, this standard applies to the largest building. The setback standard may be increased when a usable public space with pedestrian amenities (e.g., extra-wide sidewalk, plaza, pocket park, outdoor dining area or town square with seating) is provided between the building and front property line.    - Adjacent to any other zone: None required
3. **Rear Yard**
   Adjacent to a Residentially Zoned lot 10 feet

B. Buildings have their primary entrance(s) oriented to (facing) the street. Building entrances may include entrances to individual units, lobby entrances, entrances oriented to pedestrian plazas, or breeze-way/courtyard entrances (i.e., to a cluster of units or commercial spaces). Alternatively, a building may have its entrance facing a side yard when a direct pedestrian walkway not exceeding 20 feet in length is provided between the building entrance and the street right-of-way.

C. Off-street parking, driveways or other vehicular circulation shall not be placed between a building and the street which is used to comply with subsection B (1), above.
